8. **CHARGE THE CART OVERNIGHT, *EVERY* NIGHT**

Continue reading below for more detailed information & tips!

**This Rental Guide is intended as a helpful resource for our customers. Nothing contained herein supersedes the Waiver and Release of Liability Agreement.

LSV OPERATION

Basic Cart Operation:

- Only licensed drivers at least 21 years of age may operate the cart
- The number of passengers may not exceed the manufacturer's designed and installed seating capacity
- All of our carts are equipped with seatbelts…please use them! Please ensure children are seated and buckled in at all times while operating the cart
- Please ensure the parking brake is set any time the cart is idle
- Most carts are equipped with a rear flip seat that folds out to become a cargo shelf
- Carts are equipped with headlights, taillights, and brake lights. Please make sure to turn on headlights when operating at night or in low-light conditions
- Carts are equipped with turn signal indicators for your convenience and safety
- Carts are equipped with side-view mirrors. Please adjust them for your use

Driving Instructions:

- Drivers agree to be responsible for compliance with all laws and government regulations in the use of the cart
- Alcoholic beverages are NOT permitted to be consumed in any of our carts. No driver shall operate any cart while under the influence of alcohol or any other intoxicating substance
- LSV's are permitted to operate 24 hours per day
- Carts are NOT permitted to be driven on the beach, beach access paths, or sidewalks
- DO NOT DRIVE THE CART THROUGH STANDING WATER! Doing so can damage the electric motor, batteries, and components. After heavy rainfall, there are many areas on the island that will have standing water. Please avoid these areas and find alternate paths
- LSV's are permitted to travel on any roads on Isle of Palms and Sullivan's Island. They are NOT allowed to leave the islands via the Isle of Palms Connector or the Ben Sawyer Bridge
- LSV's MAY cross Breach Inlet to go between Isle of Palms and Sullivan's Island
- When operating a cart, you should always pull over to let cars pass as needed, especially on roads with a 35 MPH speed limit (Palm Blvd – IOP, Jasper Blvd – Sullivan's)

Charging Instructions:

- Plug the cart up and let it charge overnight, every night. This will ensure the cart is charged and ready when you want to use it. You can leave it plugged in until you are ready to use it, the cart will not overcharge
- Charging cord is located under first or second row seat. If not there, check under rear seat behind the license plate/cooler.
- Carts that have an onboard charger should be plugged directly into a standard power outlet. Then, if needed, insert the other end of the charging cord into the charging port on the cart

- For carts that have a separate charger, the charger should be placed in between the cart and the power outlet. Plug the power cord into the outlet, and the other end of the charging cord into the charging port on the cart. DO NOT PLACE THE CHARGER IN A PLACE WHERE IT WILL GET WET. Doing so will damage the charger and require it to be replaced
- Make sure the cart is fully charged before it is picked up on the last day of your rental. Failure to do so could incur a fee of $50 being charged to your credit card

Storage Instructions:

- If possible, keep the cart in a garage when not in use. Please ensure prior to pulling the cart into a garage that it will fit. Many of the garage doors on the island are too short to allow enough room for carts, especially if they are lifted
- If garage storage is not possible, please take steps to ensure the cart is parked in a safe place
- Ensure that you have an adequate place to store the cart where it can be charging while parked. Again, if the cart has an external charger, make sure the charger is in a place where it will not get wet
- DO NOT leave the keys in the cart while parked

Parking:

- Carts may be parked in any public parking space designated for a car. This includes beach parking along Palm Blvd (IOP), side street parking on Sullivan's Island, and shopping center parking lots. If desired, carts can also be parked in metered parking spaces, as long as fees are paid just like in a car
- Parking along Palm Blvd on Isle of Palms is allowed, but you MUST NOT be within 4ft of the pavement. This is very tightly controlled, and if you are in violation you are almost guaranteed to get a parking ticket
- Side streets on Isle of Palms are reserved for Resident Parking only. If your cart does not have an Isle of Palms Resident Parking Sticker, you may not park along the side streets of the island. When in doubt, look for signs
- There is parking along most streets on Sullivan's Island, but pay close attention to signs. Oftentimes, only one side of the street is dedicated for parking. Additionally, all wheels must be off the pavement when parked on Sullivan's Island streets. If you are parked illegally, you will receive a ticket.
- On Isle of Palms, parking at beach accesses between 42nd Ave and 57th Ave are reserved for Residents only. If your cart does not have an Isle of Palms Resident Parking Sticker, you may not park at these beach access paths. However, parking is still available along Palm Blvd between 42nd and 57th Ave.
- ADDITIONALLY, there are several areas with designated golf cart parking on both Isle of Palms and Sullivan's Island. These are great areas to park that are often available while regular vehicle parking is full. See island maps for more details on where these parking areas are located

POINTS OF INTEREST (Isle of Palms)

- **The Beach:** Take time during your stay to explore the various sections of IOP beachfront, as they are all a bit different. Starting from the south side of the island:
  - » Breach Inlet: While there is no swimming allowed, due to deadly currents, this is a cool stretch of beach to explore, winding all the way around under the bridge up until the Boathouse restaurant. Very often there are dolphins swimming right off the beach. Access this area by parking almost all the way at the end of Ocean Blvd and using the first beach access path
  - » 100 Ocean Blvd to 800 Ocean Blvd: This stretch of beach is known as Millionaire's Row, and has some really beautiful homes lining the beachfront. This part of the beach is generally less crowded than other areas as well
  - » Front Beach: This stretch of beach lies in front of the downtown area of IOP, where the majority of hotels, restaurants, bars, and shops are. Walk right off the beach to several restaurants and bars for lunch. This is where you will find the IOP Pier, as well as the Isle of Palms County Park, with a playground area right off the beach. This tends to be one of the most crowded stretches of beach, so if you enjoy people watching, this might be your place!
  - » 21st Ave to 41st Ave: The second most popular part of the beach on the island. This stretch has great sand and often tide pools, which can be great for the kiddos. The beach access at 25th Ave has awesome golf cart parking, which is about a third of the way down the access path. You can also drive your cart almost all the way to the beach to unload passengers/cargo, and then turn around and go back to the parking area. Designated golf cart parking is also available at 28th Ave and 31st Ave.
  - » 42nd Ave to 57th Ave: This stretch of beach is the widest on the island. This is also the area where you will find the most seashells, including large whelk shells. If your cart has a Resident Parking Permit Sticker, you can park at the beach access paths on the side streets. The best is at 42nd Ave, with a wide access path lined with rubber matting. If not, you can park anywhere along Palm Blvd and walk up any of the access paths.
  - » 58th Ave +: This area of the beach is technically inside the gate of Wild Dunes, a gated resort community at the north end of the island. If you are staying in Wild Dunes, or have a reason to be entering Wild Dunes, you can access this area by going through the security gate off of Palm Blvd. Otherwise, you will need to park anywhere up until 57th Ave and walk on the beach.
- **IOP Marina:** While vacationing on Isle of Palms, a trip to the IOP Marina is a must! It's a great spot to go on the golf cart, and has ample golf cart parking, which is great considering it can get busy. The marina has a terrific gift shop inside, with lots of clothing, gear, sunglasses, etc. It is also a convenience store, where you can get snacks, sodas, and adult beverages. You can even buy singles, which you can crack open and enjoy on the deck overlooking the water. Saltworks Deli is inside the marina, serving breakfast and lunch every day. There is also a great little playground area out front for small kids. If you're feeling adventurous, there are tons of activities and excursions that can be booked at the marina. Fishing charters, boat and jet ski rentals, nature tours, and parasailing are just a few of the options available.

- **IOP Recreation Center:** Located on Hartnett Blvd between 27th and 29th Avenues, the "Rec Center" has a huge playground for the kids, basketball courts, ballfields, and tennis courts. There is also an indoor gym facility, but that is only accessible to residents.
- **Golf:** If you're a golfer, there are two premier golf courses located on Isle of Palms. They are both inside of Wild Dunes, but are open for anyone to play. Book a tee time and play either the Harbor Course or Links Course. There is also a driving range and practice facility available at the Links Course.
- **Tennis:** As previously mentioned, there are two tennis courts available at the IOP Rec Center. They are reserved certain times of day, but otherwise are available for play first come, first serve. There are also numerous courts in Wild Dunes that can be reserved for a fee.
- **Shopping:** There are various shopping options on the island, including the previously mentioned shop at the IOP Marina. Check out the Front Beach area on Ocean Blvd between Pavilion Dr and JC Long Blvd, where there are several gift shops located. For food and grocery shopping, visit the Harris Teeter grocery store on the island, or directly across the street there is a great seafood market as well as butcher shop, serving both meats as well as prepared meals.
- **Bars & Restaurants:** The majority of the bars and restaurants on the island are located in the Front Beach area. Here you will find both beach bars (such as the Windjammer and Dinghy) as well as high-end restaurants (such as Coda del Pesce) and everything in between. Acme Lowcountry Kitchen is a favorite restaurant on the island, and is located just behind the Front Beach area on JC Long Blvd. Additionally, there are two restaurants in the Harris Teeter shopping center (Long Island Café is a must!), and the Boathouse Restaurant is at the far south end of the island at the Breach Inlet Bridge.

POINTS OF INTEREST (Sullivan's Island)

- **The Beach:** Like IOP, there are several different stretches of beach worth exploring on Sullivan's Island:
  - » At the island's north end, you will find Breach Inlet. There is a nice, although small, stretch of beach with a small parking lot right beside the bridge on the Sullivan's Island side. Like the IOP side, there is no swimming allowed, due to strong currents, but dolphins can often be seen right offshore.
  - » Station 29 to Station 32: A thin stretch of beach, divided by rock sea walls. This is a very tranquil stretch of beach, with little traffic and typically very calm water.
  - » Station 28 to Station 28.5: One of the most popular spots on the island, this is where the beach really starts to open up and get much wider, especially at low tide. The beach access path is very short at the 28.5 access, making it a quick and easy walk to the beach from the street. There is usually a huge tide pool, which is perfect for the kids to play in. This is also the number one kite surfing spot in the area, which can be fun to watch!
  - » Station 21 to Station 26: The widest stretch of beach on the island, especially at low tide. This is a popular area for sunbathing and hanging out. Station 22 has the widest and best beach access path, also with a boardwalk most of the way.
  - » Station 18 to Station 19: This stretch of beach is directly in front of the Sullivan's Island Lighthouse, which provides a cool backdrop for your beach day activities and photographs. This is also one of the most popular spots on the island for sunbathing and just hanging out.
  - » Station 12: While this part of the beach is very narrow, and there are certain areas where you cannot swim, it provides some spectacular views. From the beach you can look out over the entrance to Charleston Harbor. This is obviously a main shipping channel, so there are lots of large boats coming and going. You can also see Fort Sumter not far off of the coast, and a little past that is the Morris Island Lighthouse at the end of Folly Beach. Fort Moultrie is just to your left as well. This is also a popular fishing spot.
- **Fort Moultrie:** Located at the southwestern portion of the island, Fort Moultrie is a must visit while on Sullivan's Island. The fort is absolutely chock full of history, as it served in both the Revolutionary and Civil Wars. The first fort built there, formerly named Fort Sullivan, was built of palmetto logs, which inspired the SC flag and state nickname "The Palmetto State". The fort was a part of the US Military (and Confederate Military) for 171 years before being decommissioned in 1947 after World War II. Edgar Allan Poe was also briefly stationed at Fort Moultrie, from 1827-1828, which is why there is so much celebration of him on the island, including a street name, a restaurant (Poe's Tavern), and a library.
- **Sullivan's Island Lighthouse:** While you can't actually go into the lighthouse, due to some structural issues, it is still a cool sight to see, and there is a beach access path adjacent to it. It was finished in 1962, the last onshore manned lighthouse built by the Federal Government. When first opened, it had 28 million candlepower, and was the second most powerful in the Western Hemisphere. However, it was so bright, it was actually lowered to 1.2 million candlepower, and can still be seen for 26 nautical miles.

- **Cool Houses:** While there are many, many beautiful homes on Sullivan's Island, which are a treat to ride around and see, there are also several incredibly unique houses which are a must see. A beachfront white dome house that is nicknamed "The Eye of the Storm" can be found on Marshall Blvd. Several houses on the island are built on top of or inside of old military bunkers. One of particular note, with a large red fish on the roof, can be seen on Brownell Ave. There is also a castle on the island, which can be rented, but only for stays of a month or longer. Mugdock Castle can be seen on Middle St towards the southwestern end of the island.
- **J. Marshall Stith Park:** Located on Middle St just up the street from the main downtown area, this is a favorite park for locals and visitors alike. There are play areas for little kids and big kids, two tennis courts, a ballfield and more. Behind the park you will notice a very large and steep hill. On top, there is a huge open field, with a couple of old military structures on the backside. You can access the top by walking up the trails through the bamboo forest (the kids typically love this), or there is a road that leads up there behind the fire station.
- **Bars & Restaurants:** Sullivan's Island is known for having some of the best restaurants in the area. But they can get VERY busy, so plan accordingly. For casual dining and drinks, head to Poe's Tavern for burgers, or to Home Team BBQ for delicious smoked meats and sides. If you like frozen adult drinks, you have to try a Gamechanger at Home Team. For more upscale fare, High Thyme and Obstinate Daughter are both fantastic. Reservations are a must for both. Beardcat's Gelato is below Obstinate Daughter, and Republic Ice Cream is right beside Poe's Tavern, both delicious spots for dessert.
- **Shopping:** There are a handful of shops and galleries in downtown Sullivan's Island on Middle St. There is also a local pottery shop (Adele's Pottery) located at Middle St and Station 17. And a famous local artist's studio (Mickey Williams' Studio) is located at Middle St and Station 18.5, where you will see the "happy tree" out front.
